

FINANCE HOST

User Guide

Track rental income and expenses in the Finance Panel, review dashboards and reports, then export to the included Excel spreadsheet.

READ FIRST

For install steps, open installation-guide.pdf first. This guide covers daily use of the panel — properties, income, expenses, overview, reports and Excel export.

1. What nogvia Finance does

- Track rental **properties** in one portfolio
- Log **income** from Airbnb, VRBO, Booking.com, Direct and Other
- Record **expenses** by category
- Review **dashboards** — revenue, occupancy, ADR, cash flow
- **Export to Excel** — sync panel data into the spreadsheet template

TWO PARTS

Use the Finance Panel for daily entry on your computer. Export to Excel when you need a spreadsheet to share, archive or review with an accountant.

2. Your screen

Left sidebar

- **Main** — Overview
- **Management** — Properties, Income, Expenses
- **Reporting** — Reports
- **System** — Settings

Top bar

- **Year** and **Property** filters
- **Export to Excel** button
- Welcome line with your host name

Data saves in this browser. A legal disclaimer appears at the bottom of the sidebar.

3. Recommended setup order

1. Settings — host name, currency, tax rate, reporting year, date format
2. Properties — add each rental unit
3. Income — log bookings
4. Expenses — log costs
5. Overview — review KPIs
6. Reports — monthly P&L and activity log
7. Export to Excel when needed

4. Settings

- **Host name** — shown in the top bar
- **Currency** — symbol across the panel (USD, EUR, GBP, etc.)
- **Fiscal year start** — used in export
- **Reporting year** — default year for filters and export filename
- **Tax rate (%)** — estimates Tax reserve on Overview
- **Available nights / property / year** — used for Occupancy (often 365)

Date format

Choose **DD/MM/YYYY** or **MM/DD/YYYY** for display in the panel and exported Excel cells.

Data management

- **Load sample data** — explore with example entries
- **Import JSON** — restore from a backup file

5. Properties

Each row is one rental unit: **Name**, **Code**, **Currency**, **Bedrooms**, **Active**.

1. Click **Add property**.
2. Edit details in the table — data saves automatically.
3. Click **Remove** to delete (confirm in the dialog).

6. Income

Log bookings and payouts on the Income page.

- **Date, Property, Platform**
- **Check-in / Check-out** — nights calculated automatically
- **Gross, Clean., Plat. fee**
- **Net** — calculated net revenue (shown in green)

1. Click **Add booking**.
2. Fill in dates and amounts.
3. Click **Remove** to delete — use **Undo** or Activity log to restore.

7. Expenses

- **Date, Property, Category, Vendor, Amount, Recurring**

Categories include Cleaning, Maintenance, Utilities, Insurance, Mortgage / Rent, Supplies, Marketing, Platform Fees, Property Tax, HOA, Landscaping and Other.

1. Click **Add expense**.
2. Select property and category, enter amount.
3. Mark recurring costs (utilities, mortgage) for consistent tracking.

8. Overview dashboard

Main dashboard for the selected **Year** and **Property**.

Top KPI cards

- Revenue YTD, Net income, Expenses
- Occupancy, ADR

Charts

- Revenue overview (monthly line chart)
- Revenue by source (platform pie chart)
- Recent transactions, cash flow, top properties

Secondary KPIs

- Platform fees, Mortgage / rent, Tax reserve, RevPAR

9. Reports

Activity log

Full history of add/remove actions for income, expenses and properties. Filter by area and click **Restore** to undo a change.

Monthly P&L

Revenue, expenses and net profit per month for the selected year.

Expense breakdown

Totals grouped by category.

10. Undo and recovery

Quick undo

On Income, Expenses or Properties, click **Undo** next to Add and choose **Restore**.

Activity log

Open **Reports** for the full history and restore any past action.

NOTE

Undo restores added or removed rows. Edits to field values are not logged — change the field manually if needed.

11. Export to Excel

1. Click **Export to Excel** in the top bar.
2. The panel fills the built-in template with your data.
3. Your browser downloads a file such as **nogvia-finance-2026.xlsx**.

Exported tabs: Settings, Properties (up to 10), Income and Expenses. Date cells use your Date format setting. Re-export whenever you want an updated file — there is no live sync.

12. Data and privacy

- Data lives in your browser on this computer (**localStorage**)
- No account or login required
- Internet not required after the app loads
- Backup via Export to Excel or JSON import in Settings
- Another browser will not see the same data

13. Monthly workflow

1	Start the panel (start.bat or start.sh)
2	Add new Income rows for bookings
3	Add new Expense rows for bills
4	Review Overview and Reports
5	Export to Excel for records or your accountant

14. Tips and limits

- Set Reporting year in Settings to match the year you track.
- Use property codes for easier reading in Excel.
- Enter check-in and check-out so nights and occupancy stay accurate.
- Not included: bank sync, cloud database, automatic tax filing, Guest Guide (unless Host Kit).

LEGAL

This panel is not official accounting software. Consult a qualified professional for tax and compliance matters.

Agreement

End-User License Agreement (EULA). Your Etsy purchase includes a personal, single-user right to use the nogvia software in your download package on your own computers for your own vacation rental properties.

You may not resell, redistribute, or share the software. You may not remove nogvia branding or use the software to create a competing product for sale. Commercial redistribution requires a separate written agreement from nogvia.
